SOFT SKILLS

- ▶ Quick Learner
- ▶ Team Player
- ▶ Problem Solver

Sajid

CS STUDENT & DEVELOPER

Motivated Computer Science student with a strong foundation in C++ programming and web development. Passionate about building practical software and teaching programming to beginners. Experienced in console applications, games, and full systems using data structures and file handling.

EXPERIENCE

Freelance Developer

2024 — Present

Self-Employed · Pakistan

Building software projects and web applications independently while completing studies.

- Developed educational and gaming applications in C++
- Built responsive websites using HTML, CSS, and JavaScript
- Managed projects and code using Git and GitHub

PROJECTS

C++ Learning Website

Web Development

An educational web platform designed to help beginner programmers learn the C++ language from the ground up — featuring structured lessons, code examples, and practice material.

HTML CSS JavaScript C++ Education

Console Ludo Game

C++ Project

A fully playable Ludo game built entirely for the console. Implements turn-based gameplay, dice-rolling logic, token movement rules, and multi-player support.

C++ Game Logic Loops Console UI

Library Management System

C++ Project

A complete library management system to manage books, members, and issuing/returning records. Includes search functionality and persistent storage using file handling.

C++ Data Structures File Handling OOP

EDUCATION

BSc in Computer Science

In Progress

FAST National University of Computer and Emerging Sciences

Core coursework in Programming Fundamentals, Object-Oriented Programming, Data Structures, Algorithms, Databases, and Software Engineering.

COURSEWORK & INTERESTS

Key Subjects: Programming Fundamentals, Object-Oriented Programming, Data Structures, Algorithms, Databases, Operating Systems.

Interests: Building educational tools, game development, open-source, and helping others learn to code.
